RE: State No. E07-717
Disaster No. 1671-DR-WA
FEMA No. 041-99041-00
PW No. 716

Dear Mr. Elsea:

This letter acknowledges receipt of the Request for Sealed Bid documents for the prefabricated modular steel bridge for DR 1671 PW 716, Davis Creek Bridge. We have completed the review of the documents and found them to be acceptable. The request is consistent with the PW 716 and you are approved to advertise the project.

Please be sure to submit your bid tabulations including a letter of intent designating whom you intend to award and the rationale if the lowest bidder is not recommended, to WA EMD for approval prior to making award.

If there are significant changes to the scope of work for this project, please submit the changes to us for review prior to bid and completion of the work. Completion of any changes to the approved scope of work without prior approval would jeopardize the funding for the entire project.

If there are any questions regarding this approval, please do not hesitate to contact me at (253) 512-7429 or jonathan.holmes@mil.wa.gov.

Sincerely,

Jonathan L. Holmes
Regional Public Assistance Supervisor
